### Question:

What do a seamstress and a cook  
have in common?

### Answer:

The need for **SHARP** tools.

We can help you with that.  
Many of our customers say that their  
scissors and knives come back  
sharper than when they were new.

**We use professional equipment to  
ensure a quality edge every time.**

## FAQs

### What is a Pinking scissors?

A pinking scissors is a scissors that cuts a zig zag pattern and is generally used on fabric.

### What is a Spring Assisted scissors?

See the example photo on the Work Order Form to the right. Spring assisted scissors will have a spring near the pivot point of the scissors that pushes the blades apart.

### Can you sharpen corrugated blades?

Not at this time. We can go ahead and sharpen your item, but we will put a standard beveled edge on it instead of a corrugated edge. If you do not want this, do not send an item with a corrugated edge.

### Can you sharpen serrated knife blades?

Not at this time.

### What if you break my item while sharpening?

If we break or destroy your item in the process of sharpening it, we will replace it with an item of equal or similar value. That is the only fair way.

### Is there any scissors or knives that you can't sharpen?

We will not be able to sharpen all scissors and knives due to different types of materials or because the edge has been damaged beyond repair. This could come from misuse or from being sharpened incorrectly.

### What if items are lost during return shipping?

We will not be held liable for any item lost or damaged due to shipping to or from LOK General Store. We ship Priority Mail Flat Rate and \$50 insurance is included. If you wish to have more insurance added to your package, call us. We would be happy to assist in this.

### What if I send too much money?

It is costly to issue refund checks for small amounts so therefore, if your amount isn't correct and less than \$20 over what is owed we will issue a credit coupon in your return package that you can use on future merchandise or services from us.

### What is your turn around time?

We generally sharpen items and ship them back within a few days of when we receive them. There are exceptions of course, such as over holidays or during our busy season.
